

Rep. Bruce Braley (D-Iowa) released the following statement today after the unveiling of the landmark healthcare bill, H.R. 3962 Affordable Health Care for America Act.

"I was thrilled to stand with my colleagues this morning and unveil the House healthcare bill. After months of careful deliberations and conversations with constituents, I'm proud to have a bill that will provide quality, affordable healthcare for all Americans. The bill allows young people to stay on their parents' healthcare coverage until the age of 27, it fills the Medicare donut hole and it bans lifetime limits on coverage. I'm particularly proud that the bill will address geographic disparities and provide fairer reimbursement rates to Iowa doctors-legislation I fought very hard for. Overall, this is landmark legislation that will benefit all Americans: children, seniors and the working, middle class."
